Modified Files List
Supplement No. 168
5 January 2010

By Jonathan Publishing, for the VBA

The attached disk contains all files that were modified or added since the last update. Below is an index to that disk, identifying those files that were (1) modified, (2) added, or (3) removed. By replacing the modified files, adding the new files, and deleting the removed files, the database will be made current.

> **Although not indicated in the list below, all DOS filenames carry the suffix ".doc."**

1.

The following files were **modified** since the last supplemental material was provided to you and should be *replaced* in your database with the files on the enclosed disk.

Section Number	Filename
Highlights file	hilights
HIFI-A	hifi_a
§1.911	s1_911
14-INDEX	14_index
§14.600	s14_600
HIFI-I	hifi_i
§17.110	s17_110

2.

> ——— NOTE ———
>
> **DO THESE FILE REMOVALS**
> *BEFORE* **YOU ADD ANY NEW FILES**
> **UNDER SECTION 3.**

The following files were **removed** since the last supplemental material was provided to you and should be *deleted* from your database.

Section Number	*Filename*
None	

3.

> ——— NOTE ———
>
> **DO** *NOT* **ADD THESE NEW FILES**
> **UNTIL YOU HAVE REMOVED ALL THE FILES**
> **UNDER SECTION 2.**

The following files were **added** since the last supplemental material was provided to you and should be *added* to your database from the files on the enclosed disk.

Section Number	*Filename*
None
