## **Automobile and Special Adaptive Equipment Grants**

### **Can a Veteran receive financial assistance from VA to purchase an automobile?**

Yes. Veteran or Service members with certain disabilities can receive a grant to purchase a new or used vehicle. These disabilities must be the result of an injury or disease acquired or worsened during active military service. This grant may also be paid if disabilities are a result of the following provided by VA:

- Medical treatment
- Examination
- Vocational rehabilitation
- Compensated work therapy

The grant is paid directly to the seller for the total price (up to \$20,577.18) of the vehicle. A Veteran or Service member may only receive the automobile grant once in his or her lifetime.

### **Which Disabilities Qualify You for the Automobile Grant?**

A Veteran or Service member must have one of the following disabilities to qualify for the automobile grant:

- Loss, or permanent loss of use, of one or both feet
- Loss, or permanent loss of use, of one or both hands
- Permanent vision impairment in both eyes to a certain degree
- Severe burn injury
- Diagnosis of amyotrophic lateral sclerosis (ALS)

## **Does VA Pay to Adapt a Vehicle?**

Yes. Those who qualify for the automobile grant may also qualify for the adaptive equipment grant. Veterans and Service members with ankylosis (immobility of the joint) of one or both hips resulting from an injury or disease acquired or worsened by active military service may also qualify.

Adaptive equipment includes, but is not limited to:

- Power steering
- Power windows
- Power seats
- Special equipment needed to assist the recipient into and out of the vehicle

Contact your local VA medical center's Prosthetic Department BEFORE purchasing any equipment.

The adaptive equipment grant may be paid more than once. It can be paid to either the seller or the Veteran.
