Section 107 Recertification Waiver

Thank you to all SCOs and SAAs that have provided feedback and recommendations surrounding the 107 Recertification process.

Based on this feedback, VA has developed a Section 107 Recertification Waiver Process that allows schools to waive eligible enrollments.

What Enrollments does the waiver apply to?

- This guidance **only** applies for recertification **enrollments with quarter, semester, or term start dates of August 1, 2018 through November 30, 2019.**
- **All other claims with a quarter, semester, or term start dates on or after December 1, 2019** must be certified using the **correct main, branch or extension facility code.**

What is the waiver?

The waiver will allow schools to forgo recertifying enrollments through VA-ONCE if and only if:

- The **enrollment** only includes an **extension campus(es)** that share the **same zip code** as the **main or branch campus** originally processed; **or**
- The **enrollment** only includes an **extension campus(es)** that share the **same Military Housing Area** as the **main or branch campus** originally processed.

How do I know if the waiver applies to my School?

- More information has been sent **directly from VA to your school** if the waiver process applies to you.
- The message from VA includes any **necessary instructions** that you will need to follow.

Note: the enrollment(s) **MUST** meet the specific criteria in order to be waived; all other enrollments must be recertified.

Waiver – Extension Campus Report

More information will be sent **directly from VA to your school** if the waiver process applies to you. If your school has an extension eligible for waiver, you will receive access to the following excel-based report:

Instructions

Step 1: Enter your school's main/branch facility code

Instructions: Enter the facility code of the parent (main or branch campus) in the yellow highlighted box. Extension campuses available in WEAMS as of March 13, 2020, will populate in the Extension Report. If you believe an extension campus is missing, contact your ELR for instructions.

Two lists will be generated: a list of extensions campuses eligible for **waiver within the waiver period**, and a list of extension campuses that are **not waiver eligible**.

Priority campuses: Some campuses may display a Priority indicator. Enrollments at extension campuses with a red **Priority** indicator **should be prioritized over all other recertifications** to ensure students eligible for backpay are paid in a timely manner.

Waiver: Enrollments at extension campuses located in the **same zip code or Military Housing Area for terms starting on or after 8/1/2018 but before 12/1/2019** will NOT need recertified.

Note: This excel sheet is locked except for the highlighted facility code cell.

Enter Main/Branch Facility Code: **11000719**

Facility Name: UNIVERSITY OF MAINE AT AUGUSTA
 Facility State: ME
 Facility Zip Code: 3908
 Waiver-eligible extensions: 6
 Extensions requiring recertification: 45

Extensions NOT eligible for recertification waiver. Recertify **ALL** enrollments for terms starting on or after 8/1/2018 where the student attended one or more of these campuses and was certified to the main/branch campus.

Enrollments at priority campuses should be prioritized

Facility Code	Extension Name	Address	City	Zip	Indicator
11X00419	MSAD 35 ADULT AND COMMUNITY ED	260 DOW HIGHWAY	SOUTH BERWICK	03908	Priority

Step 3: Review the extension campuses **not** eligible for waiver here

Step 4: Review the enrollments at extension campuses with a **Priority indicator**, these should be recertified first

If you have not received the Waiver Extension Campus Report, and you believe you have an extension campus eligible for waiver, please **contact your ELR** for directions on recertifying that campus.

Frequently Asked Questions

- 1. How should schools submit future enrollment certifications (as of December 1, 2019)?**
 - Schools should submit all enrollment certifications based on the location (main, branch, or extension) where the student physically attends.
 - If a student is certified to a campus that they are not physically attending with a future enrollment term start date, the SCO should correct the enrollment now in VA-ONCE to the correct campus that the student is attending prior to the term starting. Schools must certify all future enrollments to the correct facility code.
- 2. How should SCOs proceed if a campus location is not available in WEAMS/VAONCE?**
 - If a campus location is not found in WEAMS/VAONCE, the campus is not approved. Schools **cannot** certify enrollments for courses at an unapproved location to the main and/or branch location. Please work with your SAA to seek approval of these campuses.
- 3. How should I change hours or make a correction (that has not yet been processed) to enrollment periods previously certified at a main or branch campus that needs to be recertified at an extension campus?**
 - If the term begin date is prior to 12/01/19, the amendment must be made before you can recertify under the 107 Recertification Process. This means amend the enrollment to the original campus certified. This is to ensure that all over and/or underpayments due to Section 107 are calculated correctly during the 107 Recertification Process.
 - If the term has not yet started, please make the amendment now to the correct campus location(s) where the student is physically attending classes.
- 4. What should I do if an extension campus school is across state lines?**
 - If an extension campus is located across state lines and was approved prior to 12/01/19, schools should work with the SAA of the respective state to seek approval for the campus.
- 5. What is considered “off-campus” training?**
 - Internships, practicums, externships, clinical rotations, and residencies are treated as “Off-campus” training. These types of training can continue to be certified to the main/branch campus.
