VA

U.S. Department
of Veterans Affairs

Overview

Since the passing of the Harry W. Colmery Educational Assistance Act of 2017, otherwise known as the Forever GI Bill, the Department of Veterans Affairs (VA) has taken action to successfully implement each of its 34 provisions. Actions taken vary from provision to provision. This briefing is intended to provide updates on the most current actions and IT changes.

Topics of Interest

The Forever GI Bill focuses on enhancing the Post-9/11 GI Bill for servicemembers, Veterans, and dependents. Section 501 and 107 are undergoing technical fixes to ensure payments are accurately made to students.

Topics include:

- ✓ Section 501-Removes Exemption from DoD Basic Housing Allowance (BHA) Reduction
- ✓ Section 107- Calculate Housing Based on Location of the Campus where the Majority of Classes are taken

Key Changes

The Department of Veterans Affairs (VA) announced key changes on November 28, 2018, in the processing of GI Bill benefits payments under the Harry W. Colmery Veterans Educational Assistance Act of 2017 (Forever GI Bill).

Veterans Benefits Administration (VBA) will reset its implementation efforts for sections 501 and 107 of the law to allow the department time to re-establish contracting support and resources to develop the capability to process and deploy spring enrollments for 2020.

Section 501: Basic Housing Allowance (BAH) Rates

Removes Exemption from DoD Basic Housing Allowance (BAH) Reduction – January 1, 2018

- VBA will pay monthly housing allowance rates for the Post-9/11 GI Bill at the current academic year uncapped Department of Defense (DoD) Basic Housing Allowance (BAH) rates.
- For many students, this DoD BAH rate will be equal to or higher than their current payment.

Section 501: Basic Housing Allowance (BAH) Rates

- Creates two categories of individuals with separate rate tables -
 - Individuals that begin using Post -9/11 GI Bill before January 1, 2018 (VA Rate – uncapped)
 - Individuals that begin using Post-9/11 GI Bill on or after January 1, 2018 (DoD Rate – capped)

Topics of Interest

Section 107- Calculate
Housing Based on
Location of the Campus
where the Majority of
Classes are taken

Section 107: Definition of “Campus”

Previous Definition of Campus

- VBA previously defined a training site as a “campus” when the following conditions were true:
 - The individual campus of a school where the student is taking classes (i.e. the school’s science center, humanities building, or athletic center)
 - The physical location where a student is learning in a study abroad program
 - Any internship, externship, practicum or student teaching site

New Definition of Campus

- VBA will now define a training site as a “campus” when the following conditions are true:
 - The physical site of the training is either owned or leased by the school
 - The school has ownership or control over the student’s classroom instruction or the faculty conducting the instruction

Section 107

- Requires VA to calculate the Monthly Housing Allowance (MHA) under the Post-9/11 GI Bill based on the location of the campus where the individual physically **attends** majority of their classes
- This change in law applies to all new terms beginning on or after August 1, 2018
- MHA is currently based on the “main campus” location of the school where the individual is enrolled.
 - VA will continue to pay this way until Spring of 2020
 - VA will also correct retroactively any underpayments
- VA will be communicating any changes and updates to student Veterans, Servicemembers, dependents, and schools

Section 107 Enrollments

Current Enrollment Submission Process

- Schools submit the student's enrollment information through VA-ONCE
- MHA is calculated using the main campus (facility code) where the student is enrolled
- In a single term, if the student physically attends multiple schools or a school with multiple facility codes (a "guest school" relationship), the main facility code is used

NOTE: For the current academic year (2018-2019), VBA will pay housing allowances based on the location of a school's main campus, rather than the physical location of the student.

Spring 2020 - Enrollment Submission Process

- Under the Post-9/11 GI Bill, starting Spring 2020, VA will calculate MHA based on the location of the campus where the individual physically attends the majority of their classes
- A student's MHA will no longer be based on the location of the main facility the student is attending. It will be based on the location where the student physically attends the majority of their classes.
