Release Notification
From: LGY
Version: 23.6.0

Production Deployment Date: May 2, 2023 @ 8:00PM CT/9:00PM ET

Focus of Release: The areas of focus for the LGY 23.6.0 release include system enhancements that will allow appraisers, and WebLGY end users to view the builder’s contact information on Form 26-1805 when the builder’s ID number is entered and permit the issuance of Notice of Values (NOV) when the mobile or manufactured home liquidation indicators is NULL.

This release provides value to both internal and external users. It will improve the efficiency of appraisal requests and minimize the need of appraisers/end users to look up builder’s information in LGYHub and allow end users to process NOVs without incurring a system error and issue the NOV in a timely manner.
