Call for an appointment

Video benefits meetings are now available at the Togus Regional Office to provide Maine Veterans with benefit information and claims assistance using video teleconferencing technology.

VA Video Connect uses secure, live video technology to connect you and a Togus representative visually and audibly throughout the session.

This service increases Togus' responsiveness to your needs, reduces your travel costs and time, and improves your access to benefits. If you are interested in the service, we encourage you to contact our Public Contact Team.

Video meetings are accessible on any device with a webcam and microphone. There is no need to download specialized software or obtain unique usernames and passwords (Apple iPhone users will need to download the free VA Video Connect application from the App Store). Access to a scheduled session is obtained through a unique link sent directly to you and is valid for that session only.
