Section 309 of this law seeks to protect Veterans from predatory lending practices when refinancing home loans and ensure the loans are in Veterans’ financial interests.
On December 17, 2018, VA published an Interim Final Rule addressing VA guaranty requirements for cash-out refinance loans (83 FR 64459).

- The rule is effective on February 15, 2019
- Public comment period open through February 15, 2019

This rule implements section 309 for VA cash-out refinance loans. A future rulemaking will address interest rate reduction refinance loans (IRRRLs).

- **TYPE I:** A refinancing loan in which the loan amount does not exceed the payoff amount of the loan being refinanced.

- **TYPE II:** A refinancing loan in which the loan amount exceeds the payoff amount of the loan being refinanced.

The LTV ratio of the refinancing loan may not exceed 100 percent of the reasonable value of the property.

**LTV Calculation:**

\[
\frac{\text{loan amount}}{\text{property value}} = \text{LTV}
\]
All cash-out refinancing loans must satisfy at least one of the following:

- Eliminate monthly mortgage insurance
- Decrease the loan term
- Decrease monthly (P&I) payments
- Reduce the interest rate
Net Tangible Benefit (NTB), Continued

- Maintain LTV equal to or less than 90%
- Refinance an interim construction loan
- Increase monthly residual income
- Refinance from an adjustable-rate loan to a fixed-rate loan
Lenders must provide the following information for the existing and new loan for all cash-out refinancing loans:

- Loan amount vs. payoff amount
- Loan type
- Interest rate
- Loan term
- Total amount the Veteran will have paid after making all payments as scheduled
- LTV
- Home equity being removed from property
Lenders must provide the comparison disclosure to the Veteran within three business days from the date of the loan application and at loan closing.

The Veteran must sign and/or acknowledge receipt of both disclosures.
A loan is considered seasoned on the later date of:

- 210 days after the first monthly payment is made, and
- Six monthly payments have been made on the loan

Loan seasoning applies to TYPE I and TYPE II refinancing loans made to refinance a VA-guaranteed home loan.
These requirements apply to TYPE I refinancing loans made to refinance a VA-guaranteed home loan, in which the loan being refinanced has a fixed interest rate.

**FIXED Rate-to-FIXED Rate:** The interest rate of the refinancing loan may not be less than 0.5 percent (50 basis points) of the interest rate on the loan being refinanced.
**FIXED Rate-to-ADJUSTABLE Rate:** The interest rate of the refinancing loan may not be less than 2 percent (200 basis points) of the interest rate on the loan being refinanced

- **Discount Points > 1%:** If discount points are included in the refinancing loan amount, the loan amount may not exceed an LTV of 90 percent.

- **Discount Points ≤ 1%:** If discount points are included in the refinancing loan amount, the loan amount may not exceed an LTV of 100 percent.
Fee Recoupment

- Recoupment of all fees, expenses, and closing costs included in the loan amount and paid outside of closing must be recouped through lower principal and interest (P&I) payments within 36 months from the date of closing.
- The lender must certify to VA that the fee recoupment requirement is met.

Fee recoupment applies to TYPE I refinancing loans made to refinance a VA-guaranteed home loan.
Fee Recoupment Calculation:

Divide all fees, closing costs, and expenses by the reduction of the monthly P&I payment as a result of the refinance.

Prepaid expenses like homeowners’ insurance, taxes, special assessments, and homeowner’s association fees may be excluded from the 36-months recoupment calculations.
